The EU-China Light Bridge

Increasing tourism flows between the European Union and China is also about better knowing each other.

The European Commission therefore proposes a simple but powerful idea to bring about many local, festive and cultural initiatives: *creating a bridge of light between the EU and China by illuminating landmarks with the colours of their respective flags on symbolic nights.*

Where possible this illumination will be combined with a celebration involving European and Chinese communities.

The EU pillar of the Light Bridge

The EU pillar of the Light Bridge will be 'built' on **Friday 2 March 2018 and/or Saturday 3 March 2018** when landmarks around the EU will shine in red - the main colour of the Chinese flag - to coincide with the celebration of the Lantern Festival in China.

On that night many Chinese launch sky lanterns as a symbol of hope and good fortune for the year to come. Well wishes are often written on these lanterns.

The Chinese pillar of the Light Bridge

It is foreseen to build the second pillar of that bridge in China on a convenient date close to "EU day" (9 May 2018). On that occasion, a number of Chinese sites would be illuminated in the blue of the EU flag.

Next to futuristic landmarks such as the Macao Tower (confirmed), ancient sites such as (a portion of) the Great Wall are also targeted.

Who can participate ?

Any site in the EU: landmarks, historical monuments, modern buildings, skyscrapers and in particular bridges.

Illumination

In order to evoke China, sites should be illuminated in red and, where possible, a few golden stars should be projected.

- Red of the Chinese Flag: Pantone / PMS 199. Equivalent RGB (214, 28, 56)
- Golden stars of the Chinese Flag: Pantone / PMS 108

Timing

The Light Bridge will be built on Friday 2 March 2018, the day of the Lantern Festival in China, and/or Saturday 3 March 2018, if it is easier to organise an event on Saturday evening.

How to leverage your 'Light Bridge' event

Pictures and videos of your site would have a greater appeal in China if there is a (mixed) **crowd and sky lanterns in the forefront** of your illuminated site.

One way to get local and Chinese communities to attend your illumination could be to organise a cultural event (exhibition, concert, food tasting, etc.). You could invite participants to light up biodegradable and flame retardant sky lanterns (see [FAQ](#)), writing well-wishes as it is tradition in Chinese communities.

Invite media and other influencers to spread the word about your site. Engage your local online community, partners and stakeholders and create your own story worth sharing by using these hashtags **#ECTY2018**; **#EUChinaTourismYear**; **#EUChinaLightBridge**.

Benefits for participants
